FALKON
SECURITY

Spreading Wings, Securing Assets

Falkon Security was founded in 2016 in Australia. Its is a fully Australian owned entity. Our services spectrum includes provision of security solutions to large commercial, public and government organizations throughout Queensland, NSW and NT. Falkon Security prides itself on employing a dedicated and experienced team of executive and operational staff. Our team is dedicated to ensuring the best security services for its clients with effective 24/7 support.

An Exceptional Commitment to Service

Our standards of aptitude, pursuance, and devotion were delicately selected and form the basis for exceptional customer service as well as regulating our daily business transactions.

At Falkon Security we believe in mobilizing, promoting, and maintaining exemplary employees. Since our contracts include protecting the properties, the people, the events, and the image of our clients, we tend to deploy the best and most appropriate individuals for the job.

Our Vision

To provide high quality services to people at any time, wherever it is needed. Pushing forward to create solutions to develop a total sense of well-being and peace of mind to our clients that makes their life more secure, convenient, and comfortable.

Our Values

Our people are our strength, and we strive to nurture teamwork that will provide ultimate service environment.

With a strong focus on the client, we work together as a partner to the client, taking the time to understand their requirements and customize the services to match.

Growth and development of the team is key to our success. Continual learning ensures we meet the changing needs of our clients.

Strong leadership is demonstrated at all levels from directors to operatives, speedy decision making, and constructive feedback means our team is aware what needs to be achieved.

SECURITY**

Insurance

Falkon Security ensures the correct amount of cover for every eventuality. Additional coverage can be obtained as per client's respective needs.

Professional Membership

Falkon Security is a member of The Australian Security Industry Association Ltd, (ASIAL), as the official body for the security industry, we are ensuring we abide by its code of conduct and ensure continued membership as part of our obligations and industry participation.

Reporting System

Falkon Security maintains the highest standard in our reporting. We understand every client has different needs and we tailor our standard reporting system to suit your requirement. We can provide reports on a daily, weekly, monthly and annual basis. Our clients can specify timeframes to meet their specific requirements. Our reports are varied and cover a broad spectrum.

Patrols & Response Vehicles

All our vehicles and radios are fitted with GPS tracking. This allows us to observe in real time the location of any foot or vehicular patrol at any given time and is accurate to within 2 metres.

Our system can generate reports that show when a vehicle or officer visited a site and track where they went at any given time. We can provide a probe point system on the clients sites which entails installing "digi" points at any required location around a customer's site or patrol route.

The officer has a wand, that when touched on the point records the time of visit. The system can generate reports from this for our clients.

Our team understands the need to be proactive instead of reactive and will ensure all reported matters are followed up and no issue is left unresolved.

24/7 Customer Support

Falkon Security stands above our competitors by providing an open line of communication with our clientele 24/7.
